DESIGN. BUILD. MAKE AN IMPACT.

Making your digital presence matter.

Modern UI, data-driven UX, and web and app development.

STARTER OVERVIEW / DRAFT FOR REVIEW

OUR EXPERT SERVICES

Digital services, no boundaries.

From product experience to a cohesive brand and a working digital platform.

01

UI/UX Design

User-friendly experiences for websites, mobile apps, and desktop applications.

02

Web & App Development

High-performance websites and mobile applications, from front-end to back-end.

03

Logo & Brand Identity

Logos, visual guidelines, and cohesive brand identity across touchpoints.

04

Framer Design & Development

Interactive websites with responsive layouts, rich interactions, and animations.

05

SaaS Product Design

Intuitive and scalable product experiences with seamless user flows.

One connected approach.

Research, design, development, testing, and handover.

FROM THE LEVEL7 PORTFOLIO

Work that brings ideas to life.

A selection of projects featured on the current company website.

Way Fields

E-Commerce / 2024

Creative agency and artist e-commerce portfolio.

Raven Studio

Business / 2025

Branding and marketing for a creative agency.

Electorade

Landing Page / 2025

A modern landing-page funnel for an electrolyte beverage brand in Bangladesh.

FROM DESIGN TO LAUNCH

A clear path forward.

01 **Research**

User research, personas, usability testing, and journey maps establish the project foundation.

02 **Design**

Sketches, wireframes, styling guides, and user-interface design shape the experience.

03 **Develop**

Backend architecture, database management, and agile development bring the product together.

04 **Testing**

Quality assurance and interaction testing identify critical issues before launch.

05 **Handover**

Deployment, user feedback, and primary fixes support the product handover.

BUILT AROUND YOUR VISION

Your vision. Our expertise.

We partner with clients through research, design, development, and delivery.

LEVEL7 specializes in web and app design and development, with modern UI and data-driven UX at the core of its process.

Draft starter overview, assembled from existing Level7 website content. For review and refinement.
